Care with courage

Welcome to Royal Star & Garter

Thank you for your interest in Royal Star & Garter.

Since I joined this fabulous charity, I have been amazed and humbled by the passion and dedication of every member of staff. It is this that led us to be awarded the highest possible rating by the CQC – 5 Outstandings. Our teams in our three Homes are nothing short of exceptional in the care they deliver, while our teams in Central Services provide unrivalled support.

I am looking for someone really special to join us as a Shift Leader. It is a role that will suit someone who is collaborative, engaged and professional. You don't have to have management experience - if you think this role sounds right for you then please get in touch. I'm looking for someone with experience of delivering exceptional, high-quality care that demonstrates strong commitment to nursing the elderly along with the desire for personal growth.

It matters to me who you really are. We strive to live our values in everything we do, and we want the people who join us to do the same. Having the right person join our team is important.

We are committed to investing in our staff – in skills, behaviours and wellbeing. We have a comprehensive training offer for our team members and your continued professional development is important to us. We are looking for people who share our values, people with passion and dedication who want to work as part of a team. People who want to make a difference to others. If this is you then I look forward to receiving your application.

Our Vision and Mission

Our Vision and Mission

We are committed to our vision of a future where all veterans can live life to the full.

Our mission is to provide outstanding care, for veterans and their partners who live with disability or dementia, together with a varied and engaging programme of activities that enables residents to remain independent and enjoy life.

Our Care

Our Solihull Home offers a warm welcome to residents and their families. The Home is rated 'Outstanding' by the Care Quality Commission in all five areas and staff provide specialist dementia and nursing care tailored to the needs and wishes of each individual. Every aspect of the Home has been designed with our residents' well-being in mind.

Our staff are highly skilled and motivated and are constantly evolving services and innovating our care to meet present and future needs. This includes younger veterans, a day care service, and an outreach project planned for later this year.

Your future

We will ensure that you have the professional support and development to provide safe, high-quality care to our residents through our Development Framework, a series of modules that build clinical care competencies and knowledge.

The focus of the training is on practice, with hands on mentoring, guidance and clinical supervision from experienced practitioners and nurses. On completion of the Core Module, you will be eligible for a Level 3 Diploma in Care.

For staff wishing to follow a long-term career in care, our Development Framework also offers the opportunity to acquire specialist clinical care competencies through additional training, ending in leadership training to prepare staff for a management or specialist care role. Progression through the Development Framework is rewarded through enhanced pay.

Essential behaviours for our staff

1. You will be a proactive member of a dynamic, high-performing team, treating others with respect, kindness and understanding
2. You have a strong commitment to nursing the elderly and providing the highest standards of care to enable residents to live their lives as fully and independently as possible. It is about recognising that each person is an individual and adapting one's own approach accordingly.
3. You will work collaboratively with people from different backgrounds and with different perspectives than your own, building positive and effective relationships.
4. You recognise the strengths of people in your team, sharing your knowledge and skills to support and develop their abilities. Challenging poor attitudes and performance issues in a timely and constructive manner.
5. You model professional conduct, showing determination, drive and commitment at all times, particularly when faced with challenges and setbacks.
6. You reflect on your practice: identifying your own strengths and limitations; being receptive to feedback; and, actively seeking and making use of opportunities for development and wellbeing.
7. You manage your time effectively, ensuring that you understand the roles and responsibilities of colleagues and are comfortable discussing your wellbeing.
